1.

Your banner stand kit includes:
Silver Aluminium base, bungee pole set(s), printed graphic banner (already inserted) and a carry bag.

2.

Swivel out the stabilising feet. Take the bungee pole and insert the pole into the slot on the top of the base.

3.
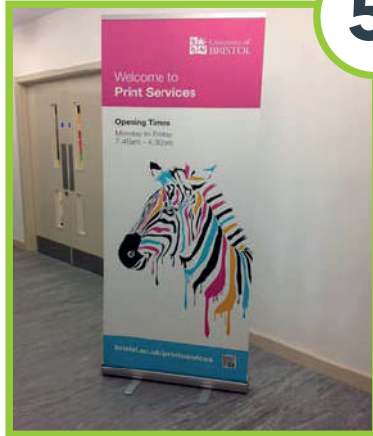

Place your foot on one of the stabilising feet, Carefully pull the graphic panel straight up from the top of the silver base until fully extended.

4.

Hook the top rail of the display stand over the bungee pole.

5.

The display banner stand is now fully assembled and ready for use.

6.

To lower the Display, gently feed the graphic straight into the base. Do not let go of the graphic panel until fully retracted into the base.
